

VU.360 LMS

The VU.360 LMS platform manages the delivery, tracking and measurement of your compliance, licensing and certification training requirements. Designed to work in tandem with 360training.com's extensive compliance and licensing e-learning library, VU.360 can also be extended to host your proprietary learning content and assessments.

As a fully web-hosted solution the VU.360 LMS requires no set-up or implementation and is provisioned for your use immediately upon course group enrollments through any of our on-demand learning portal storefronts.

VU.360 LMS features:

- On-demand and immediate access
- Fully web-hosted and secure
- Learner and manager modes
- Hierarchy and roles-based user management
- Bulk or group-based registration
- Batch user imports
- Self-guided or assigned enrollments
- Training plan management
- Survey creation, distribution and measurement
- Custom reporting wizard and favorites

VU.360 LMS benefits:

- Rapidly meet compliance mandates
- Document regulatory compliance
- Minimize training delivery costs
- Improve workforce productivity
- Centralize tracking and reporting
- Standardize procedures and processes
- Measure and monitor competencies

VU.360 LMS is optimized for:

- Continuing education programs
- Pre-licensing education
- Licensing exam preparation
- Corporate ethics and compliance
- Certification and skills training
- Stand alone testing and assessments
