

100 Safety and Soft Skills

101 Personal Protective Equipment (PPE)

- 101-01 Personal Protective Equipment
- 101-02 Hearing and Noise Safety
- 101-03 Respiratory Protection Program

102 Worksite Safety

- 102-01 Slip, Trip, and Fall Protection
- 102-02 Ladder Safety
- 102-03 Portable Power Tool Safety
- 102-04 Machine Hazards and Safety
- 102-05 Machine Guarding
- 102-06 Hand Tool Safety
- 102-07 Stationary Power Tool Safety

103 First Aid

- 103-01 First Aid

104 Fire Prevention

- 104-01 Fire Prevention and Protection Program
- 104-02 Fire Extinguisher Safety

105 Lockout/Tagout

- 105-01 Lockout/Tagout Safety Program

106 Confined Space Safety

- 106-01 Confined Space Safety

107 Electrical Safety

- 107-01 Electrical Safety
- 107-02 Energized Electrical Equipment Safety

108 Materials Handling

- 108-01 Materials Handling and Storing Safety

109 Rigging Safety

- 109-01 Rigging Safety

110 Scaffolding Safety

- 110-01 Scaffolding Safety

111 Aerial Devices Safety

- 111-01 Scissor Lift Operations and Safety

112 Crane Operations Safety

- 112-01 Scissor Lift Operations and Safety

113 Forklift Safety

- 113-01 Forklift and Powered Industrial Truck Safety

114 Fall Protection

- 114-01 Fall Protection

115 Trenching and Excavation Safety

- 115-01 Trenching and Excavation Safety

116 Compressed Gas Cylinder Safety

- 116-01 Compressed Gas Cylinder Safety

117 Hazardous Materials Safety

- 117-01 Hazardous Materials Safety

130 Behavior Based Safety Training

- 130-01 Behavior Based Safety Programs – Basic Design
- 130-02 Behavior Based Safety Programs – Basic Concepts
- 130-03 Hazardous Material Procedures
- 130-04 Confined Space Procedures
- 130-05 Hot Work Procedures

200 Industrial Maintenance

201 Introduction to Industrial Maintenance and the Tools of the Trade

- 201-01 Evolution of Simple Machines
- 201-02 Hand Tools I
- 201-03 Hand Tools II
- 201-04 Portable Power Tools
- 201-05 Torque Wrenches

202 Belt Drive Maintenance

- 202-01 Introduction to Belt Drive Maintenance
- 202-02 V-Belts
- 202-03 Positive Traction Belt Drives
- 202-04 Sheave Maintenance

203 Bearing Maintenance

- 203-01 Introduction to Bearings
- 203-02 Rolling Contact Bearings
- 203-03 Sliding Surface Bearings
- 203-04 Bearing Installation and Removal
- 203-05 Bearing Seals
- 203-06 Troubleshooting Bearing Failures

205 Gear Maintenance

- 205-01 Introduction to Gear Drives
- 205-02 Types of Gears
- 205-03 Maintaining Gear Drives

207 Rotating Machinery

- 207-01 Lubrication Selection and Sampling in Rotating Machinery
- 207-02 Lubrication Management in Rotating Machinery
- 207-03 Lubrication Analysis in Rotating Machinery

208 Piping

- 208-01 Pipe and Pipe_fitting Symbols
- 208-02 Pipe Joining Methods
- 208-03 Piping Construction and Sizing
- 208-04 Piping Expansion, Support and Insulation
- 208-05 Piping Auxiliaries

209 Shaft Alignment

- 209-01 Shaft Alignment

211 Chain Drive Maintenance

- 211-01 Introduction to Chain Drives
- 211-02 Chain Drive Maintenance and Troubleshooting

213 Lubrication

- 213-01 Lubrication Basics
- 213-02 Types of Lubricants
- 213-03 Lubrication Sampling and Analysis
- 213-04 Lubrication Filtration and Purification

215 Valve Selection and Maintenance

- 215-01 Introduction to Valves and Their Components
- 215-02 Valve Actuators
- 215-03 Gate Valves
- 215-04 Globe Valves
- 215-05 Buttery Valves
- 215-06 Ball Valves
- 215-07 Check Valves
- 215-08 Needle Valves
- 215-09 Plug Valves
- 215-10 Diaphragm Valves
- 215-11 Pinch Valves
- 215-12 Safety and Relief Valves
- 219-01 Introduction to Centrifugal Pumps
- 219-02 Centrifugal Pump Design
- 219-03 Centrifugal Pump Fundamentals
- 219-04 Centrifugal Pump Operation

223 Heat Exchangers

- 223-01 Heat Exchanger Theory
- 223-02 Open Heat Exchanger Design and Operation
- 223-03 Closed Heat Exchangers

225 Compressors

- 225-01 Plant Compressed Air Systems
- 225-02 Compressed Air System Components
- 225-03 Positive Displacement Compressors
- 225-04 Dynamic Compressors

229 Fasteners and Seals

- 229-01 Bolted Joints
- 229-02 O-Rings
- 229-03 Making Gaskets
- 229-04 Fasteners
- 229-05 Packing Material Use and Installation
- 229-06 Mechanical Seals, Use and Installation

231 Positive Displacement Pumps

- 231-01 Introduction to Positive Displacement Pumps
- 231-02 Reciprocating Positive Displacement Pumps
- 231-03 Rotary Positive Displacement Pumps

243 Hydraulics

- 243-01 Introduction to Hydraulics
- 243-02 Hydraulic Systems
- 243-03 Hydraulic Fluids

271 Vibration

- 271-01 Vibration Introduction
- 271-02 Vibration Causes and Characteristics
- 271-03 Basic Vibration Troubleshooting Techniques
- 271-04 Plant Vibration Program

273 Boiler Repair

- 273-01 Boiler Tube Repair
- 273-02 Inspecting the Fireside of a Boiler I
- 273-03 Inspecting the Fireside of a Boiler II
- 273-04 Inspecting the Waterside of a Boiler
- 273-05 Inspecting a Boiler's Exterior
- 273-06 Waterside Cleaning of a Boiler
- 273-07 Fireside Cleaning of a Boiler

400 Industrial Electricity

401 Direct Current (DC)

- 401-01 Electron Theory
- 401-02 Magnetism and Electromagnetism Explained
- 401-03 Ohm's and Kirchoff's Laws Relating to DC Circuits
- 401-04 Evaluating Series and Parallel DC Circuit Performance
- 401-05 Determine Circuit Outputs from Specified Inputs

402 Alternating Current (AC)

- 402-01 Introduction to Alternating Current
- 402-02 Ohm's and Kirchoff's Laws Involving AC Circuits
- 402-03 Types of Power in AC Circuits
- 402-04 AC Circuit Calculations
- 402-05 Impedance in AC Circuits
- 402-06 AC Power

405 Power Quality Measurement and Troubleshooting

- 405-01 Introduction to Power Quality
- 405-02 Power Quality Events and Applications
- 405-03 Power Quality Problems

409 Industrial Motors

- 409-01 Induction Motors
- 409-02 AC Generators
- 409-03 AC Induction Motor Theory
- 409-04 Troubleshooting AC Induction Motors
- 409-05 Working with Complex AC Circuits
- 409-06 Generator Overhaul
- 409-07 Generator Systems
- 409-08 Generator Overhaul

411 Motor Control

- 411-01 Induction to Motor Controls
- 411-02 Motor Protection and Fault Diagnosis
- 411-03 Motor Control Troubleshooting

413 AC Drives

- 413-01 Variable Speed Drives

415 Transformers

- 415-01 Transformer Basic Operation and Theory
- 415-02 Transformer Design and Components
- 415-03 Transformer Connections
- 415-04 Special Transformers

417 Switchgear Maintenance

- 417-01 Switchgear
- 417-02 Low Voltage Breakers

419 Motor Operated Valves

- 419-01 MOV (Motor Operated Valve) Application and Construction
- 419-02 MOV (Motor Operated Valve) Disassembly and Inspection
- 419-03 MOV (Motor Operated Valve) Disassembly and Inspection, Part 2
- 419-04 Limit Switch Adjustment

421 Connections and Terminations

- 421-01 Wire and Cable Management
- 421-02 Terminating and Connecting Wires in a Control Panel
- 421-03 Making Connections in a Junction Box

423 Cable Splicing

- 423-01 Introduction to Medium and High Voltage Splicing and Terminations
- 423-02 High Voltage Cable Splicing
- 423-03 High Voltage Terminations

500 Power Generation and Alternate Energy Operations

501 Power Generation

- 501-01 Energy Conversion
- 501-02 System Turbine Basics
- 501-03 Combustion System Component Overview
- 501-04 Boiler Water and Steam Cycle Overview
- 501-05 Generator Overview

505 Turbine Auxiliaries System and Control

- 505-01 Steam Turbine Design
- 505-02 Steam Turbine Valves and Control
- 505-03 Steam Turbine Auxiliaries

507 Generator Auxiliaries and System Control

- 507-01 Generator and Auxiliary Systems' Functions
- 507-02 Generator and Auxiliary Systems' Flow Paths and Major Components
- 507-03 Generator Construction and Process Control
- 507-04 Generator and Auxiliary Systems Start-up
- 507-05 Generator and Auxiliary Systems' Normal Operations
- 507-06 Generator and Auxiliary Systems' Shutdown

511 Combustion Turbine Fundamentals

- 511-01 Combustion Turbine Fundamentals

521 Combustion Air and Flue Gas System

- 521-01 Introduction to Combustion Air and Flue Gas Systems
- 521-02 Combustion Air and Flue Gas Flow Paths and Components
- 521-03 Control Loops and Methods of Control
- 521-04 Combustion Air and Flue Gas System Start-up
- 521-05 Maintaining Normal Fan Operations in Combustion Air and Flue Gas Systems
- 521-06 Shut Down Process

523 Boiler Fuel Systems

- 523-01 Function, Flow Path, and Major Components of the Boiler Fuel System
- 523-02 Process and Methods of Control for the Boiler Fuel System
- 523-03 Boiler Fuel System Start-up
- 523-04 Normal Operation of the Boiler Fuel Systems
- 523-05 Shutdown for the Boiler Fuel System

531 Combustion Theory

- 531-01 Function, Flow Path, and Major Components of the Boiler Fuel System
- 531-02 Basic Boiler Design
- 531-03 Basic Valves and Fittings of the Boiler
- 531-04 Boiler Fuel and Air Systems
- 531-05 Boiler Water and Steam Cycle
- 531-06 Boiler Heat Recovery Systems
- 531-07 Boiler Environmental Controls
- 531-08 Boiler Operator Roles and Responsibilities

533 Condensate and Feedwater Systems

- 533-01 Fuel Combustion and Controls
- 533-02 Boiler Burner Controls and Management

551 Circulating Water System

- 551-01 Introduction to the Circulating Water System
- 551-02 Function of the Circulating Water System
- 551-03 Circulating Water System Components
- 551-04 Circulating Water System Start-up
- 551-05 Circulating Water System Normal Operations
- 551-06 Circulating Water System Shutdown
- 551-07 Circulating Water System Controls

553 Condensate and Feedwater Systems

- 553-01 Introduction to the Condensate and Feedwater System
- 553-02 Major Components of the Condensate Systems
- 553-03 Major Components of the Feedwater System
- 553-04 Process and Control Loops for the Condensate and Feedwater Systems
- 553-05 Start-up for the Condensate and Feedwater Systems
- 553-06 Normal Operation of the Condensate and Feedwater Systems
- 553-07 Shutdown Procedures for the Condensate and Feedwater Systems

555 Boiler Feed Pumps

- 555-01 Boiler Feed Pumps and Associated Auxiliary Equipment
- 555-02 Boiler Feed Pumps and Major Components
- 555-03 Boiler Feed Pump Water Supply and Control Systems
- 555-04 Boiler Feed Pump Start-up
- 555-05 Boiler Feed Pump Daily Operations

557 Boiler Water and Steam Systems

- 557-01 Functions of the Boiler Water and Steam Systems
- 557-02 Flow Paths and Major Components of the Boiler Water and Steam Systems
- 557-03 Process Controls for the Boiler Water and Steam Systems
- 557-04 Start-up Procedures for the Boiler Water and Steam Systems
- 557-05 Normal Operation of the Boiler Water and Steam Systems
- 557-06 Shutdown of the Boiler Water and Steam Systems

559 Water Treatment

- 559-01 Molecular Chemistry of Water
- 559-02 Elements and the Periodic Table of Elements
- 559-03 Chemical Compounds
- 559-04 Corrosion Causes and Effects
- 559-05 Corrosion Control in a Power Plant
- 559-06 Steam Chemistry Control and Guidelines
- 559-07 Power Plant Water Treatment Systems

561 Unit Start-up and Shutdown

- 561-01 Preparing for Power Plant Start-ups
- 561-02 Power Plant Start-ups Procedures
- 561-03 Preparing for Power Plant Shutdown
- 561-03 Preparing for Power Plant Shutdown
- 561-04 Power Plant Shutdown Procedures

563 Efficiency, Reliability, and Environmentally Sensitive Operations

- 563-01 Basic Power Plant Efficiency
- 563-02 Water and Steam: Terms and Principles
- 563-03 Heat Transfer Principles
- 563-04 Laws and Principles of Thermodynamics
- 563-05 Performance Parameters
- 563-06 Balancing Efficiency, Availability, Capability and Flexibility
- 563-07 Instrumentation and Controls
- 563-08 Boiler Efficiency
- 563-09 Boiler Reliability
- 563-10 Turbine Efficiency
- 563-11 Condenser Efficiency
- 563-12 Condenser Operation and Reliability
- 563-13 Feedwater Heater Operation and Efficiency
- 563-14 Feedwater Heater Operation and Efficiency
- 563-15 Environmentally Sensitive Operations

565 Plant Control System

- 565-01 Distributed Control System Fundamentals
- 565-02 DCS Components
- 565-03 Using DCS Diagrams
- 565-04 Power Plant Unit Control

581 Diesel Power Plant Operations

- 581-01 Diesel Engines for Power Generation
- 581-02 Diesel Engine Support Systems
- 581-03 Diesel-Powered Generation
- 581-04 Diesel Power Plant Operations
- 581-05 Diesel Plant Control Systems and Protective Devices
- 581-06 Diesel Plant Routine Maintenance

583 Hydroelectric Power Plant Operations

- 583-01 The Hydroelectric Role in the Power System
- 583-02 Hydroelectric Power Stations
- 583-03 Water Management
- 583-04 Hydroelectric Generators
- 583-05 Hydroelectric Generator Monitoring and Control
- 583-06 Hydroelectric Plant Auxiliaries
- 583-07 Operating Electrical Equipment in a Hydroelectric Plant

600 Industrial Instrumentation

603 Process Control Variables

- 603-01 Instrumentation and Control Overview
- 603-02 Principles of Temperature
- 603-03 Principles of Pressure
- 603-04 Principles of Level
- 603-05 Principles of Flow
- 603-06 Temperature Instruments
- 603-07 Pressure Measuring Devices
- 603-08 Level Measuring Devices
- 603-09 Flow Measuring Devices

605 Test Equipment

- 605-01 Multimeters
- 605-02 Oscilloscopes
- 605-03 Power Supplies
- 605-04 Signal Generators
- 605-05 Thermometers and Calibrators
- 605-06 Manometers
- 605-07 Pressure and Vacuum Calibrators
- 605-08 Megohmmeters (Megger)

607 Analyzers

- 607-01 Analytical Instruments
- 607-02 Introduction to Analytical Testing

609 Calibration and Troubleshooting

- 609-01 Calibration Overview I
- 609-02 Calibration Overview II
- 609-03 Introduction to Troubleshooting
- 609-04 Instrument Troubleshooting

611 Prints and Drawings

- 611-01 P&ID Basics
- 611-02 Reading a P&ID
- 611-03 Electrical Drawings
- 611-04 Logic Diagrams
- 611-05 Industrial Print Reading Overview

613 Automated Control

- 613-01 Introduction to Automated Control
- 613-02 Pneumatic and Electronic Control System

615 Signal Transmission and Conversion

- 615-01 Signal Transmission
- 615-02 Basic Principles of Industrial Transmitters
- 615-03 Smart Transmitters

617 Controllers and Final Control

- 617-01 Controller Control Modes
- 617-02 Digital Control Operation II
- 617-03 Final Control Elements

621 Programmable Logic Controllers

- 621-01 Introduction to Programmable Logic Controllers

623 Advanced Process Trainer

- 623-01 Introduction and Panel Components of the DAC Advanced Process Trainer
- 623-02 Standard Instrumentation of the DAC
- 623-03 Advanced Process Trainer

800 Machine Shop

801 Precision Measurement

- 801-01 Introduction to Measuring and Care of Measuring Tools
- 801-02 Measuring Rules and Tapes
- 801-03 Micrometers
- 801-04 Fixed Gauges
- 801-05 Measuring with Calipers
- 801-06 Dial Indicators
- 801-07 Telescoping Gauges

803 Layout and Bench Work

- 803-01 Introduction to Measuring and Care of Measuring Tools

805 Vertical Milling Machine

- 805-01 Vertical Milling Machine

807 Engine Lathe

- 807-01 Engine Lathe

809 Surface Grinder

- 809-01 Surface Grinder

811 Pedestal Grinder

- 811-01 Pedestal Grinder

813 Bandsaw

- 813-01 Bandsaw

820 Rigging, Lifting and Elevated Work Surfaces

- 820-01 Scaffold Erection and Components
- 820-02 Rigging I
- 820-03 Rigging II
- 820-04 Rigging III
- 820-05 Ladders
- 820-06 Overhead Cranes
- 820-07 Aerial Lift Devices

841 Welding and Cutting for Maintenance

- 841-01 Welding Setup and Safety Concerns
- 841-02 Metalurgy
- 841-03 Gas Metal Arc Welding (GMAW)
- 841-04 Shielded Metal Arc Welding (SMAW)
- 841-05 Gas Tungsten Arc Welding
- 841-06 Oxyacetylene Braising and Soldering
- 841-07 Oxyacetylene Cutting

700 Petro Chemical Equipment and Operations

Coming in 2009!

- 701 Overview of Liquid and Gas Storage Devices
- 703 Reforming and Synthesis
- 705 The Distillation Process
- 707 Process Reactors
- 709 Furnace Equipment and Operations
- 711 Separation Equipment
- 711 Process Auxiliary Equipment
- 713 Compressors use in the Petro Industry
- 715 Product Movement and Storage
- 721-29 Process Technology Systems
- 731-35 System Operations
- 741 System Economics and Optimization
